

KLOVE is vital to the OKC community. They provide positive music that encourages people to be optimistic, get involved in the political process, serve others and show kindness to all. The OKC community would be hurt if KLOVE was not available in the metro. If KLOVE is displaced by a LPFM station the community would lose a major source of encouragement and a stable of the Christian community. It is crucial that KLOVE stay on the air in OKC. Oklahomans count on 88.9 fm to be a constant source of hope. Taking KLOVE off the air... or displacing it with LPFM broadcaster would not be in the public interest of Oklahoma City. -Thank you.
